

EAT

EAT 300B Valve

The ultimate 300B tube. From AVGuide: "With EAT 300B tubes in the circuit, the amplifier's performance at the frequency extremes improved pretty drastically..."

Quick reference data :

Valve Type : **300B Triode**

Amplification Factor : **3.9**

Filament Voltage : **5 Volts**

Filament current : **1.25 A**

Size – included socket : **6.6 x 16 cm / 2.6 x 6.3 inch**

Cathode : **Oxide, directly heated**

Maximum Anode Dissipation : **36 W**

Transconductance : **5 mA/V**

Max. DC Anode Voltage : **450 V**

Cooling of The Valve : **radiation**

Measured Value If : **1.1 A**
