Dear Music Lover,

Congratulations for acquiring a
Métronome device! My Team and myself
thank you for your trust and your choice.

Métronome Technologie has been designing and
handcrafting hi-fi devices for more than 30 years,
with the permanent objective to make top high-
end products giving the most realistic sound
reproduction.

All our products are fully designed in our
workshop in the South of France and manufactured
by our handcrafters in the most sustainable way.

I wish you long hours of musical pleasure with
your new device, and always keep at your disposal
for all your questions and feedback on our products.

Very Best regards,

Jm Clauzel

1 Unpacking

Your LE PLAYER® 3+ is packed in a specific carton box and protected from the shocks by a couple of specially designed foams.

Carefully unpack the device and be careful about the weight. For more security the help of a second operator may be useful.

Please keep the packaging and protection foams which must be used for sending the unit back in case of maintenance or repairs. The Métronome Warranty will be considered as cancelled if the returned units are not correctly packed and subsequently damaged.

Make sure to read the Safety Instructions Chapter before continuing.

Your LE PLAYER® 3+ box contains:

- 1 x LE PLAYER® 3+ main unit
- 1 x main electrical cord
- 1 x Standard Métronome remote control
- 1 x Set of 3+ Delrin® Cones
- 1 x Owner's Manual, including Certificate of Origin and Warranty Document

2 Safety Instructions

2.1 Warnings

In order to avoid any risks of fire or electrical shocks, maintain the unit in a dry place. Do not expose to humidity.

Before connecting and operating the product, please read attentively the present manual.

The power supply generates dangerous voltages for the human body:

- Do not introduce any metallic object through the top cover or on the airings, nor on connectors
- Never dismantle the top cover if the unit is not unplugged. For any intervention, please contact your retailer

Install the product onto a stable surface

The Product characteristics, specifications and conception are subject to changes without prior notice.

2.2 Safety

Always disconnect your entire system from the AC mains before connecting or disconnecting any cables, or when cleaning any component.

A three-conductor AC (IEC) main power cable including a ground connection must be used. To prevent shock hazard all three connections must always be used.

Never use flammable or combustible chemicals for cleaning (especially on the touchscreen).

Never operate the device without the top cover in place.

Never wet the inside of the device with any kind of liquids.

Never block the air flow through ventilation slots.

Never by-pass the fuses, not replace the fuse with other type than specified.

Never try to repair the product: contact the factory or your retailer.

Never expose the product to extremely high or low temperatures.

Always unplug all sensitive electronic equipment during lightning storms.

3 Quick Start with a CD

LE PLAYER® 3+ internal power supply is adjusted at the factory for a nominal voltage corresponding to the electrical network of your country.

Install LE PLAYER® 3+ unit on a Hi-Fi rack or on a stable and strong support.

Do not install the unit directly on a carpet or flammable material.

Do not put any object on the top of the unit.

Before starting open the remote control and insert the provided batteries.

- A. Plug the unit to the AC with the supplied power cord or compatible cord
- B. Plug the analogue outputs to your amplifier or pre-amplifier
- C. Start the unit with the main power switch, the screen lights up
- D. Open the drawer, put a CD and close the drawer
- E. Press on Play on the touchscreen

Should it fail to operate:

- Turn off and unplug the unit
- Check the fuses
- Start again the Quick Start procedure
- If there is no difference, please contact Métronome Technologie Factory.

The touchscreen should be alright when the unit operates.

The power supply can be switched on during a long period. Between listening sessions, please put the device on stand-by. For a prolonged absence, it is advised to switch it off and unplug the unit from the AC network.

The power supply is protected by internal electronic circuits and by a general fuse located in the block near the main cord beside the switch. To change the fuse, it is mandatory to unplug the main power cable before opening the fuse compartment with a screwdriver. Then replace the fuse by the same model: 1A, temporised fuse (eq. slow burn). NEVER CHANGE THE FUSE VALUE.

4 Using LE PLAYER® 3+

4.1 Connecting LE PLAYER® 3+

Take a look at the back of the LE PLAYER® 3+ :

1 : Power switch
3 : Digital Inputs

2 : Power cable connector
4 : Analog Outputs

Métronome® do not advise specific connexion cables. The cables may influence the sound restitution and should be tested before use.

4.2. Starting LE PLAYER® 3+

After having carefully plugged all necessary connexions, start your LE PLAYER® 3+ using the main switch [1]. All the digital outputs are always active, so there is no available settings to activate or deactivate one or another output.

LE PLAYER® 3+ can be switched on during a long period, either on normal mode or on stand-by. However for a prolonged absence it is advised to turn it off using the main power switch [1].

4.3 Reading a Compact Disk on your LE PLAYER® 3+

Let's have a look at the front of the device :

A : Front Drawer
C : Functions buttons

B : Open/Close the Drawer
D : Input selection (USB - S/P DIF - CD)

How to play a CD :

Press on [B] to open the front drawer and put a CD on top of the drawer. Press again on [B] to close the drawer. The CD initialization begins, it may take a few seconds to be completed, depending the number of tracks.

Once the display shows the disc information (total time, number of tracks), press on play [▶] to start on the front board or on the remote control (see Chapter 6).

4.4 Using LE PLAYER® 3+ as a D/A Converter

LE PLAYER® 3+ has a high-resolution asynchronous USB input allowing to read digital files up to 32 bits / 384 kHz and DSD files up to DSD 512 (DSD x8 = 22.5 MHz). The USB input accepts all formats, unlike the standard digital S/PDIF input, which only accepts files up to 24 bits / 192 kHz.

Many transports and media players can be used to play music on Le Player 3+. Most of them have been tested, including JRiver and Audirvana+, but Métronome Technologie cannot guarantee a complete functionality on all the media players existing on the market.

Important note about computer drivers:

LE PLAYER® 3+ is automatically recognized by all systems operating under MacOS (Apple) or Linux.

For systems operated by Windows, a driver needs to be installed on your computer. The drivers can be downloaded from our website (Products/Downloads). Once saved on your computer, unzip the file and click on the .exe file. Once the setup complete, select Combo 384 ASIO in the settings of your media player.

LE PLAYER® 3+ has one digital to analog processor, decoding native files including DSD (no file transformation to DoP or downsampling). Check the settings of your media player to be sure the DSD files are read in their native form.

5 Remote control

Carefully unpack the Métronome® standard remote and insert the provided LR03+ AAA batteries

This infra-red remote functions under RC5 protocol, so it may interfere with your other devices functioning under the same transmission protocol.

Functions accessible after clicking on [CD] touch :

[1] to [9] : access to the tracks

▶ : PLAY

▶▶ : NEXT TRACK

|| : PAUSE

■ : STOP

[REPEAT] : one time for CD repeat, twice for track repeat

[VOL+]/[VOL-] : dimming

⏻ : STAND-BY

NB: no functions accessible after clicking on the [AMP] touch :

Technical Specifications

Pickup Mechanism	Philips Gyr Falcon 8 customized by Métronome®
Analog Outputs	Balanced XLR Unbalanced RCA
Digital Inputs	S/P DIF RCA 70hms Asynchronous USB
Power consumption	40 VA max
Available Voltage	100VAC 50/60Hz / 120VAC-23+0VAC 50/60Hz
Dimensions (W x H x D)	450 x 120 x 420 mm
Weight	11 kg

6 Warranty

Métronome Technologie guarantees the components of your Métronome® LE PLAYER® 3+ during 2 years from the date of purchase.

In the event of a product failure, Métronome Technologie will repair, readjust and should the event arise, replace the units providing that all the clauses contained in the Warranty are met.

In order to initiate service of any kind, it is necessary to get the distributor or dealer authorization and then ship the defective unit.

Please note that any of the following conditions will cancel the Warranty:

- Operating not in accordance with this Manual
- Abuse, accident or unauthorized modifications of the device
- Removal of serial numbers, defacing or falsifying
- Shipping without the complete original boxes and foams

Métronome Technologie shall not be liable for any accidental damages during operation, failure, troubleshooting or repair of your Le Player 3+.
